#### **SCLAKREADER**

#### Inputs, outputs and power supply

- Power supply: 12-9V DC (respect the polarity)
- Current consumption: 13 A @12VDC

#### Technology and security

- Bluetooth Low Energy 4.0 or higher connection
- RFID technology
- SHA-256 data encryption
- No internet connection required

#### **SCLAKCYLINDER**

Code: MEEHPSC50V556DNA Description: سلندر ۵۰ × ۵۰ ملم

#### Inputs, outputs and power supply

- Power supply: 4 AAA 1.5V batteries
- Average battery duration: up to 15,000 uses or 1.5 years in standby mode
- No wiring required
- External micro USB port for emergency power supply

#### Technology and security

- Bluetooth Low Energy 4.0 or higher connection
- RFID technology
- SHA-256 data encryption
- No internet connection required

#### **SCLAKKEYPAD**

Inputs, outputs and power supply

- Power supply: 1 ER14505M 3.6 V AA battery
- No wiring required
- Average battery duration: up to 20,000 uses or 3 years in standby mode

#### Technology and security

- Bluetooth Low Energy 4.0 or higher connection
- SHA-256 data encryption
- No internet connection required

#### **GEAR-R**

Code: MEEHGSC06DR40X40 Description: Knob for cylinder 40x40

Code: MEEHGSC06DR60X60 Description: Knob for cylinder 60x60

Bluetooth

No internet

Indoor knob

Wireless

European cylinder

Keeps physical

Rechargeable

Inputs, outputs and power supply

- Power supply: 2 ICR3.7 17335V rechargeable lithium batteries
- Average battery duration: up to 2,100 uses or 6 months in stand by mode
- No wiring required
- External micro USB port for charging

#### Technology and security

- Bluetooth Low Energy 4.0 or higher connection
- SHA-256 data encryption
- No internet connection required

## W-PAD RFID

Inputs, outputs and power supply

- Power supply: 4×AA batteries
- Authentication mode: Password
- Average battery duration: up to 10.000 times

## W-PAD Knob

Inputs, outputs and power supply

- Authentication mode: Password
- Average battery duration: up to 10.000 times
- External micro USB port for charging
